PROFESSIONAL SUMMARY

Fresh Computer Science graduate from Cairo University with a strong foundation in full-stack software development. Graduation project earned the highest grade of A+ - built with Flutter on the frontend and FastAPI + PostgreSQL on the backend. Completed a 60-hour software engineering training program at Egronx specializing in Flutter development. Cumulative GPA of 3.27. Passionate about building cross-platform applications and solving real-world problems.

EDUCATION

Bachelor of Science in Computer Science Aug 2022 - July 2026

Cairo University - Faculty of Computers and Artificial Intelligence

Major: Information Systems

Cumulative GPA: 3.27 / 4.0

Status: Graduated

TECHNICAL SKILLS

Languages:

C++, Java, Python, PHP, JavaScript, HTML, CSS, Dart

Frameworks:

Flutter, FastAPI, Django, Laravel, WordPress

Databases:

PostgreSQL, MySQL

Core Concepts:

Software Engineering, Data Structures, Algorithms, OOP, REST APIs

EXPERIENCE

Software Engineering Trainee Aug 2025 - Oct 2025

Egronx - 60-Hour Training Program (2 Months)

Completed an intensive 60-hour training program focused on software engineering and Flutter development. Gained hands-on experience building mobile applications, writing clean and maintainable code, and collaborating on real-world development tasks.

Part-Time Web Developer Mar - Oct 2025

National Water Research Center

Provided website support, maintenance, and bug fixes. Collaborated with the team to ensure smooth operation and up-to-date web content.

Backend Developer Intern (Laravel) Aug 2025 - Oct 2025

Housing and Building Research Center

Participated in backend development using Laravel. Gained practical experience in PHP-based web application development and database management.

PROJECTS

Graduation Project: Tourmate-AI A+

Flutter | FastAPI | PostgreSQL

Built a full-stack application: Flutter-powered cross-platform mobile frontend with FastAPI backend

Univa - Course Management System

Flutter | Laravel | PHP | MySQL

Completed the Flutter development and frontend integration with the backend for the project.
Also contributed to the backend itself by managing and maintaining the APIs.
GitHub Repository

FreshMart - Grocery E-Commerce App

Flutter | Dart | FastAPI | SQLite

Developed the Flutter mobile frontend for a full-stack grocery e-commerce application,
implementing the mobile user experience and integrating it with the backend APIs.
